Setting Up Pursuit 7 for Windows - Client Setup

PLEASE NOTE: YOU WILL NEED TO MAP A NETWORK DRIVE TO THE ALARMWIN DATABASE FOLDER BEFORE SETTING UP PURSUIT. IF YOU PLAN ON USING PURSUIT 7 AS A STAND-ALONE PRODUCT YOU WILL NOT NEED A MAPPED DRIVE TO THE ALARMWIN DATABASE.

Step 1. To install Pursuit for windows, double left click on setup.exe. Follow along using the install wizard, you can leave all setting at their default selection. The default install directory is C:\Pursuit 7. If you would like to change to another drive or folder, you can change the installation directory during the setup wizard (see Figure 1.0).

🛃 Pursuit Setup	
Installation Folder Where would you like Pursuit to be installed?	
The software will be installed in the folder listed below. The new path, or click Change to browse for an existing fold NOTE: Do NOT install Pursuit 7 into an existing Alarm, Service 7 installs into the default folder, or a new folder. Install Pursuit to: C:\PURSUIT7	o select a different location, either type in a er. Express or Pursuit folder! Make sure Pursuit C <u>h</u> ange
Space required: 34.2 MB Space available on selected drive: 21.46 GB

Figure 1.0

If you are setting up Pursuit 7 on a workstation go to the next step if you are setting up a server or main computer go to **step 7**.

Step 2. Next you will need to map a network drive to your Pursuit data on your server or main computer. Go to START > COMPUTER or MY COMPUTER on the left hand side panel (Other Places) select NETWORK or MY NETWORK PLACES (see Figure 3.0). If you do **NOT** see the Pursuit 7 shared folder here go to **step 3**. If you **DO** see the Pursuit 7 shared folder go to **step 4**.

Figure 4.0

Figure 5.0

You should now see a list of available shared folders (See Figure 6.0). Highlight the PURSUIT7 shared folder. If you have shared the folder as a different name i.e. Pursuit or Pursuit 2007, just select that folder. Go to **Step 4**.

Figure 6.0

Step 4. Go to TOOLS on the menu bar and then select MAP NETWORK DRIVE (See Figure 7.0).

Figure 7.0

From the DRIVE: drop down select the letter you would like to assign to the drive mapping (in our example letter W:\). From the FOLDERS selection box click on the BROWSE... button (See Figure 8.0) from the list of shared folders select the PURSUIT7 folder on your server or main computer, then click ok. Go to step 5.

Figure 8.0

Step 5. From the MAP NETWORK DRIVE window make sure RECONNECT AT LOGON is CHECKED. Then click finish.

Map Network Drive	
Windo and as access Specify that ye	ws can help you connect to a shared network folder sign a drive letter to the connection so that you can the folder using My Computer. y the drive letter for the connection and the folder ou want to connect to:
Drive:	W:
Folder	; \\deepthought\pursuit7 🔽 Browse
	Example: \\server\share
	Reconnect at logon
	Connect using a <u>different user name</u> .
	Sign up for online storage or connect to a network server.
	< Back Finish Cancel

Figure 9.0

Step 6. Now we need to create a desktop short cut to the Pursuit program. Go to START > MY

Send To	•
Cut	
Сору	
Create Shortcut	
Delete	
Rename	
Norton Eile Insight	
Properties	

COMPUTER double left click on C:\ or Local disk C. Then double click on the Pursuit7 folder. Find Pursuit.exe right click on it then click on SEND TO > DESKTOP – CREATE SHORTCUT. Close or minimize all your windows so you can see your desktop. Find the Shortcut to Pursuit icon. Right click on it and then left click on properties (See Figure 10.0)

Figure 10.0

General Shorto	ut Compatibility
P	ursuit 7
Target type:	Application
Target location:	PURSUIT7TEST
Target:	C:\PURSUIT7\pursuit.exe
Start in: 🤇	C:\PURSUIT7
Shortcut key:	None
Run:	Normal window
Comment:	Г
Find	Target Change Icon Advanced
	OK Cancel Apply

Once the properties window opens find the START IN: section (highlighted) and change the drive letter to the mapped drive letter you selected from step 4. In most cases you do NOT need to add the word PURSUIT after the drive letter W:\ (from our example). Finally click on APPLY then click OK.

Figure 11.0

Step 7. Double click or launch the Pursuit 7 program from the desktop shortcut. Once in the program go to UTILITIES and left click on RESET ALARM INTEGRATION PATHS FOR THIS WORKSTATION ONLY (Figure 12.0).

Figure 12.0

You will then be asked if you will be integrating Pursuit with Alarm or Service Express. Please click the drop-down box and select YES (Figure 13).

Alarm and Service Express Integration Setup v1.1
Will You Be Integrating Pursuit With Alarm or Service Express?
✓ <u>O</u> K Cancel

Figure 13.0

Step 8. Double click or launch the Pursuit 7 program from the desktop shortcut. Once in the program go to UTILITIES and left click on RESET ALARM INTEGRATION PATHS FOR THIS WORKSTATION ONLY (Figure 12.0).

In the SELECT LOCATION OF ALARM DATA FILES (Network) enter the drive letter for your mapped drive to the Alarm for Windows database folder.

In the SELECT LOCATION OF ALARM DATA FILES (Local) enter C:\Alarmwin (the default) if you have Alarm for Windows installed in another directory i.e. D:\Alarmwin enter it here.

In the SELECT LOCATION OF PURSUIT 7 DATA FILES enter the drive letter of the mapped drive from Step 4. Then click OK.

Alarm and Service Express Integration	Setup v1.1	
Will You Be Integrating Pursuit With Alarm or Serv Since you are integrating with Alarm or Express, pl If you are networked, select the path to the SERV NOTE: This setup configures this worksta	ice Express?
